FRONTEND TECH

HTML5, CSS3, and Javascript for 3+ years

ReactJS Library with 2+ years of Context API and Hooks

MUI Framework with 1+ years of Google's Material Design

FRONTEND EXPERIENCE

Volunteer Web Developer (remote)   **2020-2023**
NYC Sierra Club — New York, NY
- Volunteered as the sole web designer and developer for an environmental non-profit in NYC.
- Developed the structure, design, and optimization of front-end products for the client's website via WordPress.
- Managed backend updates and system maintenance to ensure consistent client-side performance.

PREVIOUS EXPERIENCE

Provider Relations Representative II   **2020-2022**
Fidelis Care — New York, NY
- Facilitated a value-based business model for a portfolio of accounts in the network of WellCare Health Plans and Fidelis Care.
- Provided business solutions for a targeted clientele based on campaign objectives: product engagement, product marketing, quality performance, or revenue growth.
- Led new software onboarding for clientele to improve partnership and quality performance via data-driven efforts of a value-based business model.
- Analyzed business dashboards for internal teams and targeted clientele to provide actionable insights when administering particular business campaigns.

Provider Relations Representative   **2014-2020**
WellCare Health Plans — New York, NY
- Led partnered vendors with New York's risk-adjustment program that includes the management of the state's performance, client participation, and project workflow.
- Educated a targeted clientele of quality programs, such as HEDIS and RAPS, that resulted in greater state reimbursement for the clientele and better care for the plan's membership.

CBO Specialist   **2012-2014**
Alexian Brothers Health System — Arlington Heights, IL
- Managed the collection department after a single year with ABHS, which consisted of the transition of member accounts from central billing office to the collection agencies, while reporting uncollected costs to leadership each month.
- Presented business operations for the internal teams via classroom trainings and digital presentations. This education would enhance cross-department collaboration within ABHS.
